Digital Water .City

DIGITALISING URBAN WATERS

Lessons learnt from the cities of **Berlin**, **Copenhagen**, **Milan**, **Paris** and **Sofia**

08:30	**Arrival, coffee and croissants**	
09:00	**Project overview**	Nico Caradot (KWB)

CITY SESSIONS: Benefits of digitalisation in five European cities

09:20	**Milan:** Using sensors and models to foster water reuse: Is it the future?	Marco Bernardi (CAP)
09:50	**Paris:** Can digital solutions help us to swim in our urban rivers?	Sofia Housni (SIAAP)
10:10	**Berlin:** From drinking water wells to sewer operations: can we be more sustainable?	Regina Gnirss (BWB)
10:40	**Sofia:** Can low-cost sensors enhance the management of wastewater networks?	Valentina Dimova (SV)
11:00	**Break**	
11:20	**Copenhagen:** Real-time control of sewer network and treatment plant: Dream or reality?	Barbara Greenhill (BIOFOS)

TRANSVERSAL SESSIONS AND PERSPECTIVES

11:40	**Security analysis of IoT devices:** Are we aware of the risks?	Guillaume Bour (SINTEF)
11:55	**Policy contribution:** Gaps and opportunities for digital water	Ulf Stein (ECOLOGIC)
12:10	**What happens next?**	External advisory board
12:25	**Conclusion**	Nico Caradot (KWB)
12:30	**Closing of conference**
